# Year wise Trend Analysis

# Trend Analysis on Crime Types by Years

# Conclusion

- .\***Maharashtra and Uttar Pradesh** consistently report the highest crime rates against women.
- .\***Northeastern and southern states** generally show lower crime rates but are emerging as hotspots for human trafficking.
- .\*There was a **rapid increase in crimes against women** between **2000 and 2005**, a **decline around 2010**, and another **increase from 2012 to 2020**.
- .\***2011 and 2020** recorded the **highest number of cases** registered under IPC (Indian Penal Code) and SLL (Special & Local Laws) for crimes against women.
- .\***Crimes against children** were relatively low from **2001 to 2005** but saw a sharp rise after **2005**.
- .\*The crime rate has been **steadily increasing across all states**, highlighting the need for stronger law enforcement, social reforms, and public awareness campaigns to protect women and children.
